"What are you talking about?" seems to be the question Robbie McNabb has on his mind. Mr. Orr Lee McMann, Ag. Science teacher, goes through a lesson as Robbie looks on.

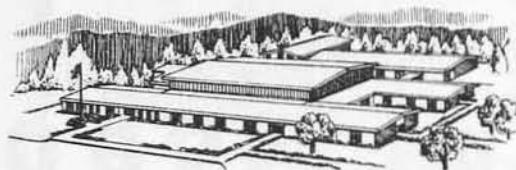

## senior candid

Is there something on the back of senior Candy Harper's pants or is Coach Pennypacker just admiring the view? Whichever is the case, Candy appears to be in a hurry to leave the scene as soon as possible.

Even though his build may not fit the requirements of a majorette, Tony Beverage is determined to be the first competitor to combine a song and dance routine with a balancing act.

# movies & music

Music and movies.

These two forms of entertainment seemed to be especially popular among the members of the class of '80.

During their four years at PCHS, these students have seen many new faces and new trends in the music and motion picture industries.

Back in 1976, groups such as Aerosmith, Paul McCartney and Wings, and singers Barry Manilow and Peter Frampton were making news throughout the music world. At the same time, "The Omen," "All the President's Men," "Marathon Man," and a remake of the old picture "King Kong," were some of the most publicized pictures of the year

Then came 1977, a year which saw many new changes in the music world. One of the most notable was the death of rock-and-roll giant Elvis Presley at age 42. His passing sent thousands of fans the world over into mourning. That year also saw the emergence of punk rock with the Sex Pistols as the prominent performers of this style. Records by Kiss, Fleetwood Mac, disco artist Donna Summer, K.C. and the Sunshine Band, the Commodores, and James Taylor were big sellers.

The motion picture industry scored big in 1977. Four movies of that year—"Star Wars," "Close Encounters," "Saturday Night Fever," and "Smokey and the Bandit"—ranked among the top ten box office hits of the decade, according to "Variety."

The next two years, 1978-79, brought three widely acclaimed films on the Vietnam War—"Apocalypse Now," "Coming Home," and "The Deer Hunter." Other big movies were "Grease," "Jaws II," "Kramer vs. Kramer," "Breaking Away," and "All That Jazz".

During this period, disco gained in popularity led in part by Donna Summer and her variety of hit records. However, by 1980, this music style seemed to be losing some of its

appeal. Another prominent trend during the last two years was the blending of rock with country music. It was because of this trend that performers such as Dolly Parton gained in popularity. Big groups during this time included the Bee Gees, the Eagles, and Styx, while individuals such as Billy Joel, Andy Gibb, and Olivia Newton-John fared very well.

So the past four years have been a very memorable time as entertainment are concerned. Seniors have witnessed the emergence of various new music forms and have undoubtedly helped contribute to the unparalleled earnings of many top films.

## Senioritis is:

- Filling up your schedule with home ec classes.
- Breaking out in hives over your SAT scores.
- Having to listen to prospective employers drone on about the decadence of youth.
- Trying to memorize your social security number.
- Getting the uncontrollable urge to see what the vice-principal's office looks like.
- Sending out graduation announcements to great-aunts and other relatives you've never even met (and hoping for presents).
- Wearing a graduation gown that drags on the floor because the class secretary put you down as six foot two.
- Standing on the threshold of adulthood—and not at all sure you want to be there.

—Mary Catherine Wilds, Oxford, Mich.

The physics class (above) is a true example of senioritis. Bobby Simmons seems to be interested in the back of the room and Carol McNeill checks her "notes," while Susan Vance takes the opportunity to get out the ole calculator.

A sudden attack of senioritis strikes Anne Burns as she takes the time to relax and read—in the office lobby.

## Durbin Graded School Is Gone, But Heart-felt Memories Linger

By CATHY GRIMES  
Staff Writer

Durbin recently lost an 84-year-old landmark with the March 9 demolition of the Durbin Graded School building.

The school opened in the fall of 1921, and the new brick building consisted of eight classrooms, a music room, library, office and candy room. As enrollment increased, three additional classrooms, an auditorium and a lunchroom were added. The old eating room was turned into the library and the old library was turned into the sickroom.

According to an article written in the early days of the Durbin School, former Durbin resident P.F. Eades said, "The Durbin Graded School is second to none in the county and closely crowding any in the state." Eades also credited Mr. Flynn, Mr. Baston, Mr. Hedrick, Mr. McMillion and Mr. Poscover for having made the school a top ranking facility.

If you had to go to the sickroom, "It was so comforting to have someone to look after you." JoAnn Vandevender Gihardi said. "They were an exceptional bunch of teachers."

In the early 1950s, all the one-room schools in the upper part of Green Bank District were moved into the Durbin Graded School.

Over the years the Durbin school building also acted as a

Donna Rexrode, Durbin resident and former student at the Durbin school, remembers, "the good old days, sliding down the banister, visiting the candy store and getting my share of old-time discipline."

community center for social gatherings, graduations, sporting events and public meetings.

According to Harry J. Widney of Lewisburg, who was a member of the last junior high class for the Durbin Graded School from 1922-1932, "The school was operated as a graded school (grades first through sixth) and as a junior high (grades seventh to ninth). He also said, "The 1935 graduating class from Green Bank High School started there as sophomores, having spent their first years at the Durbin school."

Janice Carter began working at the Durbin School as an aide in 1970 and in 1972 became the secretary for the new principal Alan Stewart of Frank.

Stewart was principal until the school closed in 1977. "I hated to see the school close," Carter said. "It was a good school. The kids were good, it

was a neat little school."

George R. Triplett, Elkins attorney and author of "Our Proud Mountain Roots and Heritage," started school at the Durbin Graded School in the fall of 1941 and graduated from Green Bank High School in 1953.

Asked what his reactions were to the demolition of the old school, "It always hurts," he said, "but I had a million-dollar childhood."

Triplett was raised at the Cheat Bridge in Pocahontas and Randolph counties and remembers walking from his home to the Big Fill where he caught the bus for the ride to Durbin School.

According to Triplett, Max Poscover was the principal at that time and a few of his teachers were Violet Hoover, Marguerite Kisner Widney and Miss Collins.

The school officially closed in 1977, and students were sent to

Green Bank.

Pocahontas County records show that on Sept. 1, 1977, the Pocahontas County Board of Education sold the school building to Kenneth G. Gibson for \$9,000.

The building has remained vacant since its closure, and through the years has fallen prey to extensive vandalism, necessitating the need to demolish the structure.

Memories of the days spent in the Durbin School abound and it was with sadness that residents watched or learned of the demise of the school building earlier this month.

Donna Rexrode, Durbin resident and former student at the Durbin school, remembers, "the good old days, sliding down the banister, visiting the candy store and getting my share of old-time discipline," she said. "Three licks with a wooden paddle and I still don't remember what I did to deserve it."

According to Jessie Beard Powell of Bartow, who attended

the Durbin School in the late 1920s, Mr. Goodsel, president of the Board of Education who also built the tannery in Durbin, insisted that the school building be located on the top of the hill.

"For the two years I attended the school there weren't any steps up to the building," Powell said. "I would bounce from the top to the bottom with my fancy leather book bag bouncing in front of me."

The Rev. Shires, minister of the Durbin Methodist Church, was principal at the time Powell attended the school.

"It was a lot of fun, and I loved going to school there" are the familiar and generally shared comments from those who attended the Durbin Graded School.

Janet Starks, longtime area resident said, "We used to have fun at that old school." She remembers the fun of sliding down the outside step rails, and hoping she didn't get caught.

In July 2004, the first annual Durbin Graded School Reunion

was organized by Gilardi and held at the Widney Park in Frank.

"We had an impressive turnout and much enthusiasm from alumni around the country," Gilardi said.

The gathering was not able to meet at or tour the school building because of the dangerous condition of the structure.

To generate interest in last year's reunion, Gilardi placed an announcement in newspapers and asked three trivia questions about the school.

She said the response was great and plans to do the same for the second reunion scheduled for noon July 23 at Widney Park.

Gilardi said she would welcome any information, answers to the questions and pictures pertaining to the school.

## Upshur

"It is a right of choice where you want to live," Long said. "That right has been taken away without a voice."

A few people have made a decision "for over 100 and that's not fair. That is why the community is upset," she said.

"This is your over-handed way of handling things," Becker said. "I don't know why you want to annex something that does not want to be a part of you. We have fought it for 30 years."

The Tennerton community has been around for 100 years and the residents want it to stay that way, he said.

According to McCauley, in the past 10 years, the city has doubled in size through various annexations and one day could expand farther along Route 20 south to Buckhannon-Upshur High School.

Tennerton residents asked the county commission to put a stop to the city's plans but were advised that the matter was out of their jurisdiction.

The city is within its legal

told last night that 30 people have signed the petition, said Thanna Wentz.

Those opposing the annexation have yet to see a petition, she said.

"We don't have anything in this," Abel said. "All we can do is listen to you and express concerns."

The next goal of the city will be to ask the County Commission to approve a boundary change, Pat Karlen said. "Then the ball will be in your court," she said.

"Put the ball in my court and I will dribble it," Abel said.

"The Legislature in Charleston tells us what we can and can not do," Tenney said. "That is where our authority comes from."

"One thing we all ignore too much is what happens in Charleston and Washington," said Commissioner Eugene Suder. "Our representatives are making decisions without much input sometimes. Not only as individuals are things shoved down our throat sometimes ... with government it's more pay

expanding the size of city council. "It may be better if people felt they had a voice," she said.

According to City Recorder/Treasurer Nancy Shobe, the move would require a change in the city charter, but it can be changed.

According to Shobe, the proposed annexation would bring about 85 additional acres into the corporate limits. Tennerton residents would benefit from a number of city services including: round-the-clock fire and police protection, snow removal, street cleaning and city street lighting.

"It will be of no benefit to me," Becker said. "You're not

going to put street lights on Route 20."

The proposed annexation will require a two reading Ordinance and public hearing before Buckhannon City Council.

Councilwoman Mary Gaudet-Shoulders suggested that those attending the joint meeting attend the public hearing.

"Oh you bet we will be there, with bells on," Becker said. "And there will be a lot more than me."

"I think all agree that some are not going to be happy about this," Tenney said. "If nothing else, this has been an educational process although not an educational process we all like."

## Board Refuses to Endorse Water Quality Change

CHARLESTON, W.Va. (AP) — As the Legislature debates a bill to strip the Environmental Quality Board of its rulemaking authority, the board has refused to endorse a legislative-ordered

## Long trip, rehearsals do not interfere with band's exhibition

The PCHS Band went to WVU on Oct. 30 for WVU's annual Band Day. The occasion was WVU versus East Carolina.

At halftime the bands marched onto the football field with bands in varied colors. The numbers played consisted of: Mirada, Pink Panther, Greatest American Hero, and Scotch Finale.

"It was a privilege to play on the same field with WVU", according to Kim Scott, senior Jamie Burks, senior, and captain of the band said, "I thought we

performed relatively well". Mr. Charles Fauber, band advisor, felt "the band did a good job for the long bus trip, and the hour and a half rehearsal. They were also very well disciplined".

WVU went on to win the game with the score being 30 to 27. After the game the "Pride of WV" gave their post game show.

Jeff Schuhmann, junior, said, "The playing was alright. I liked watching the football team".

## Warrior band performs at World's Fair

The Warrior Marching Band was accepted as the World's Fair Honor Band in April of 1982. Previously they had submitted a tape of four arrangements to the Honor Band Committee.

After the band was notified of their selection, the task of fund raising began. The funds were needed to finance their accommodations and three chartered buses.

The Warrior Band performed on September 8, 1982, on the Fairgrounds. The performance consisted of a parade through the fair and a concert at The Court of Flags.

Band members' spent their free time visiting Pavillions, the carnival, and shopping for souvenirs.

## New club plans visual yearbook

A visual yearbook is the goal of the New Media Club which is designed to provide experience in audio-visual techniques including both photography and sound-recording.

Mr. Paul Alderman, English teacher and club sponsor, said the club plans to produce a program which will be presented to the student body at the end of the year.

Club members will be taking photos all year and attempt to cover a large number of school activities. The pictures will

be made into slides or taken as 8mm movies and then be sorted and arranged according to subject-content. A sound track will be produced and incorporated into the program.

The club is for anyone interested in photography or sound recording. But camera availability is very limited as well as access to the darkroom, according to Mr. Alderman.

The club has a few fund raising activities in mind to raise money for supplies.

## Horseman's club formed at PCHS

The newly formed horseman's club met Nov. 16. Head of the club is Jack Horner and his assistant Lori Crist.

This club was formed for students who have an interest in horses. The club will give them a chance to work with horses, such as learning how to groom, feed, shoe, etc.

The next meeting will be held after school. Date is not known yet.

## Safety presentation for block classes sponsored by VICA club

The Vocational Industrial Clubs of America (VICA) sponsored a safety presentation for block classes, October 27.

It was given by Mr. Kenneth DuBois, Boyler Safety Inspector, and Mr. Cecil Flagg, State occupation inspector from Charleston.

Mr. DuBois and Mr. Flagg spoke about OSHA. OSHA stands for Occupation Safety and Health Act of 1970. They also spoke on the safety of industrial workers. Mr. DuBois explained that the inspectors get a considerable amount of static from the workers and the bosses of the pre-

cautions that should be taken by industrial workers to keep safe. These included wearing safety equipment and keeping tools in their place.

Films were also shown on these subjects to coincide with the oral presentations for the audience's better understanding.

## Warriors are victorious after months of knowing the discomfort of defeat

After six losses, the Warriors scored in the end zone against the Richwood Lumberjacks, Oct. 22.

The score was 13-0 at half time in Richwood's favor. Then early in the fourth quarter it happened. After a 60 yard drive the Warriors put the first points of the season on the board.

After a couple runs up the middle by Steve McCloud and Doug McPaters, Chuck Workman, quarterback, connected with Leo Conner on a pass on a 18 yard gain. Then on a play called Student Body Right, Chuck Workman went

in for the 29 yard score, with the help of Shawn Gilmore, Gray Beverage and Jeff Barlow out front blocking.

Then late in the fourth quarter, when the Warriors went on the field, Richwood fumbled.

Greg Monk picked up the fumble and went in for a 23 yard TD to make the final score 49-14.

The following players played well enough to receive recognition: Chuck Workman, Joe Walker, Jesse Buchanan, Shawn Ervine, Shawn Gilmore, Jim McCoy, Gray Beverage, Doug McPaters, Don McPaters, Herbie Barlow, Steve McCloud and Jeff Barlow.

**80 percent of Americans have been or are shy**

Uncontrollable redness creeping up the neck to the cheeks, clammy palms and the heart pounding in the throat are all signs of one thing, shyness.

There are literally thousands of Americans that suffer from shyness. For most people almost anything could cause blushing and heart palpitation, signs of shyness; from giving an oral report in front of a classroom full of fellow peers, or meeting somebody for the first time, male or female, to an unexpected complement from a friend.

Are these situations familiar? Does the thought of meeting new people, having a boyfriend, or going to school sound scary? Chances are, this is shyness.

Dr. Phillip G. Zimbardo, psychology professor at Stanford University, in an interview with *TEEN* Magazine said "It's important to realize that at least one

out of every two people you meet is a shy person." Dr. Zimbardo works, studies and interviews shy people.

There are over 80 percent of Americans that either have been or are now shy. One of the shyest groups happens to be adolescent girls from ages 12-13. "And unlike shy males," Dr. Zimbardo points out in the interview, "shy teenage girls think of themselves as less attractive, less intelligent and having more negative qualities than other people."

Shyness is basically divided into two types: the private shys and the public shys. The people that are shy in public are obvious for a number of reasons. These people find it hard to look at other people eye-to-eye. They may blush, shutter or even perspire when confronted with the public.

'Private shys' are fearful of

rejections. 'Private shys' have a mental attitude of shyness, but not physical signs.

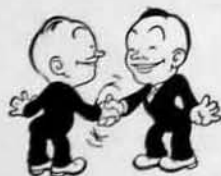

What makes people shy?

There is a 70 percent chance of growing up shy if the home-life (parents, relatives) has a certain shyness. Shy genes? No, but shy learned behavior patterns.

"When you become a teenager," explains Dr. Zimbardo, "you begin to develop your secret self." Some may have noticed this change already. A majority of teenagers are not so willing to share every thought with mom and dad anymore. The natural turning inwardness can be connected with the shyness syndromes.

Shyness doesn't mean being fragile. No one needs protecting or sheltering, but encouragement to take risks. After all, the only thing there is to lose is "shyness."
